Employment

Starboard Enterprises Ltd., Boulder, CO

2015 – 2016

A small company a friend and I founded. We mainly work with Cardboard, however, we hope to branch out to deep learning applications soon.

- **Starboard**

I worked on a multiplayer VR space shooter game for Google Cardboard. Coding is done in C# using the Unity game engine. The multiplayer networking takes advantage of Android's Google Play Games API.

- **Muse VR**

I am currently working on a VR music visualizer for Cardboard. The project is coded in Java using Android Studio to make the UI. The visualizers are made in Unity using C#.

Target, Boulder, CO
